Written corrections from Mark Evert, president of the board of Travis County Emergency Services District No. 1, emailed to Lago Vista Watchdog from his ESD 1 address on Oct. 19, 2026, as a Word file. Gray blocks are passages he copied from our draft, with its source numbers. The text after each is his, verbatim. The name and email address of a county staff member are covered. He also sent page 1 of the district's FY2026 budget vs. actuals report, published as a separate exhibit.

>
> A county map of stations for Austin-Travis County Emergency Medical Services lists two of its medic stations in ESD 1. The map marks both as funded by an ESD.23 One is at 3605 Allegiance Ave. in Lago Vista, the address of ESD 1's Station 109. The other is at 18310 Park Dr. in Jonestown, on the same street as Station 102.23,24C

MARK EVERT

Correction: The 3605 Allegiance address is no longer owned by ESD1 and has been sold to a private owner. We now host an ATCEMS ambulance at Station 103 located on Lohman's Ford. I don't have address. ATCEMS owns the building in Jonestown which is next to our Fire Station.

>
> The records we found do not show a $4.5 million TIFMAS total.16,22 ESD 1's 2025 audit shows $4,381,791 in grants and contributions, a line that does not name TIFMAS.22

MARK EVERT

Correction: The 2025 Audit was for our Fiscal Year 2025 which ended on 9/30/2025. We received our last financial statement for Fiscal Year 2026 at the meeting last week which showed FEMA/TIFMAS Reimbursement of $4,562,311 for the Fiscal year. We do get reimbursements from FEMA for out of state deployments as well……for example we responded to the California wildfires in early 2025. I'll scan and email you the financial statement. I'll also point out that we give a conservative budget estimate for TIFMAS Reimbursement as the amount that we receive is not guaranteed.

> **FROM OUR DRAFT**
>
> How many Travis County ambulances served the area before 2016, and when the county's two medic stations in ESD 1 opened.23
>
> A current county list of where its ambulances are stationed. The map we found carries no update date.23

> The 16-minute response goal he named. ESD 1's 2025 audit lists other targets, such as a first engine on scene within four minutes for 90% of incidents.1,22
>
> A record of what the county's 2024 consultant study found.27

MARK EVERT

I can only say that from 2014 when I started service until 2016 we had the same two ATCEMS ambulances. I couldn't find a map either. Chuck Brotherton at Travis County could provide that and perhaps answer the first question. I have his executive assistant [redacted] email address. It is [redacted]

Nix the 16 minute goal.....not sure what I was thinking of.....4 minutes is correct.

I spoke with Chuck Brotherton Wednesday night about the status of the 2024 study. He says the consultant is taking longer than expected and he doesn't expect the final report until sometime in early 2027.
